CLOUD FACTORY

Migrate your workloads on time & on budget with
2nd Watch & Melbourne IT Enterprise Services.

CLOUD FACTORY ACCELERATES CLOUD MIGRATION

Cloud Factory is a solution for migrating data centres to the public cloud and reducing the complexity within IT operations. 2W Cloud Factory Services provide a comprehensive set of services and tools to assess, design and migrate either entire data centers or individual workloads to the public cloud.

2W Cloud Factory Services is an industry-first solution with a fixed price, predictable schedule and reliable opex forecast that comes from its unique combination of proven methodologies, certified experts, and patent-pending tools.

Entire Data Centre migrations in less than 3 months

Deploy an automated factory to efficiently migrate workloads to the cloud in less time.

As low as \$2000 per server

BENEFITS

FAST ROI Move an entire datacenter in weeks instead of months or years

MINIMAL REFACTOR

MINIMAL DOWNTIME We use state of the art technology and tools to ensure the migration can happen with customer uptime goals in mind.

CLEAR MIGRATION COSTS

\$2,000 per server provides a clear path to budgeting the move(s)*

*A minimum number of servers and managed services may be required.

Melbourne IT Enterprise Services designs, builds and operates custom cloud solutions for Australia's leading enterprises. Its expert staff help enterprises solve business challenges and build cultures that enable organisations to use technology investments efficiently to improve long-term value. With more than 15 years' experience in delivering managed outcomes to Australian enterprises, Melbourne IT has been long associated with enabling success. Its certified cloud, consulting, and security experts repeatedly deliver results. This is why so many of the brands you already know and trust rely on Melbourne IT.

2nd Watch is an enterprise workload management provider that helps companies accelerate data center capacity growth through adoption of the public cloud. The company's public cloud-native services and tools implement and automate critical workload management processes including migration, procurement, provisioning, operations, financial management, and governance. 2nd Watch has helped hundreds of customers increase agility and lower operation costs by shifting workloads into more than 75,000 instances in the public cloud. The venture-backed company is headquartered in Seattle, Washington.
